June 20, 2012

Re: Lost Sale Profit for 9717 Old Dell Trace Richmond, Virginia 23238

To Whom It May Concern:

I am Stevie Watson. I am, and continue to be, a successful realtor in the Richmond, Virgina marketplace. Some of my credentials of note are:

- **Award-Winning Top-Producer**
- Ranked in the TOP 1% of all Realtors in America
- A TOP TEAM for Long and Foster in the Richmond area

(see: published bio attached)

For a number of years now, I have known Frank Reed. During this time, I have known him to purchase, renovate and / or build and sell for a profit both residential and commercial property. I have also participated in several transactions with Mr. Reed as either the buyer's and/or seller's agent.

As a result, I have a first-hand familiarity with Mr. Reed's property located at 9717 Old Dell Trace Richmond, Virginia 23238. This property in particular has even been featured in a published article about "Notable Neighborhoods" in the Richmond, Virginia area, (see: article attached).

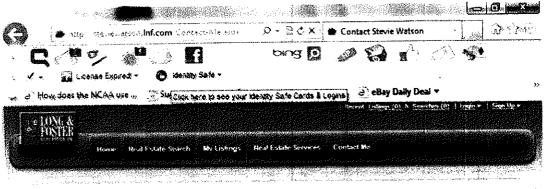

Now, I am aware that during 2008 Mr. Reed was in the middle of an extensive expansion and capital renovation of this property. I am also aware that Mr. Reed intended to sell the property for a profit as it had recently appraised for a minimum of \$1,725,000. (see: appraisal attached) Unfortunately, Mr. Reed did not finish this project and the market has since drastically declined. The current 100% assessed value of Mr. Reed's property is \$608,400 (see both: Henrico County Tax Department Value attached and Henrico County valuation methodology indicating 100% market valuation process attached).

However, if Mr. Reed had finished the work on his house at 9717 Old Dell Trace Richmond, Virginia 23238, and had offered it for sale from June 2008 through the summer of 2009, it is my opinion that the house would have sold for the appraised value of \$1,725,000. Therefore, it is my estimation that Mr. Reed has currently lost a value of at least \$1,116,600.

If you have any questions please feel free to contact me.

Sincerely,

Stevie Watson Stevie Watson Associate Broker, GRI, RRI Long and Foster Real Estate, inc.

NOTABLE NEIGHBORHOODS

HE WORD "NEIGHBORHOOD" COMES FROM THE MIDDLE ENGLISH, NIGHBOER, a farmer (boer) who lived close (nigh), and hood, a suffix which denoted one's unique condition or character. Ultimately then, the first neighborhoods developed among people who felt a close affinity for one another, both in terms of shared responsibility and social class. Neighbors looked out for one another, lent a hand, swapped stories, offered solace. Neighborhoods reflected the aspirations of the residents and recreated the values of their social class in the children who grew up there.

How good it is to find a home that reflects your highest aspirations; how much better to find it in a neighborhood that embraces you, draws you in, makes you and your family better and more involved. In Henrico County, many such neighborhoods beckon.

RIVER ROLL

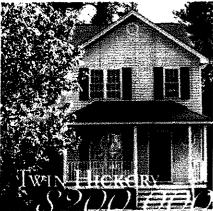

For many, Richmond, Virginia conjures up images of the Old South: stately homes situated on gracious, tree-lined streets; a slow pace of life where iced tea or a Mint Julep can be savored on a screened porch during a long sleepy afternoon; children playing on broad green lawns under a sultry summer sun. Remarkably, the image lives on in one of Henrico County's oldest neighborhoods.

The River Road corridor, stretching from the Richmond city line at its eastern terminus to Goochland County in the west, charts a course along the James River. Along the way, it encompasses many of Metropolitan Richmond's most prestigious addresses. Drive west on River Road into Henrico County and the first impression you get is "Old Money." These homes are not the cookie-cutter construction of new development, but uniquely personal creations, each situated on a spacious lot with long-established trees and gently manicured plantings. While a few are the definition of ostentatious display, most of the homes along this stretch of road are the model of understated elegance.

Kids vide bikes and voller blade down the bike play stickball at the and of the count-less cub-de-sucs arothers on the sudewalks - you can't help but smile:

With homes starting at \$200,000 in thin bloker; and spanning also millions for estates in Windows on the lumes, newscomes to bandow County, have a range of culture to the brain walled.

As River Road passes the newly redesigned Tuckahoe Course of the Country Club of Virginia, tony shops give way to the ivy-covered homes and stunning campus of the University of Richmond. As you pass Forest Avenue, take a left into the sechuded Windsor on the James. The all-brick mansions in this small, exclusive neighborhood are meant to impress with vast, manicured lawns and Georgian grandeur.

More typical of the homes along River Road, however, is the well-established neighborhood of Mooreland Farms. Every lot is different and every home is unique. The architecture runs from '70s era tri-levels, Dutch Colonials, and traditional Cape Cods to energy-efficient homes with vast walls of windows, and multi-storied homes that seem to mold themselves to the terrain. With creative landscaping, homeowners have put to advantage the steeply rolling hills that rise up from the James River, creating shade gardens and terraced lawns. The mood here is gracious living. A long-established neighborhood. Mooreland Farms is an area in transition. Long time residents share the streets with young, well-to-do families. The result is a real neighborhood feel.

GRAYSON HILL

Don't want the hassle of a lawn? Prefer to spend your money on the inside of your home than the outside? Condo living may be for you. In the past five years, the Richmond area has become crazy for luxury condos and townhomes, and Henrico County is helping to scratch that itch. Development has begun in the east end of the County at Rockett's Landing. In the west end, Gumenick Properties is meeting market demand with Grayson Hill.

Situated on 50 acres of prime real estate at the corner of Patterson Ave. and Gaskins Road, Grayson Hill offers five distinct floor plans in a wide range of prices, from the upper \$300s to the \$600s. The brick architecture is reminiscent of traditional 18th century colonial buildings with amenities that are typical of upscale, luxury living; hardwood floors throughout the common areas, granite countertops in the kitchen, and massive master suites.

Grayson Hill is trying hard to create ample open spaces to give the feel of a rambling English country garden to its layout. All of the homes feature 2-car garages, so the property will avoid the look of a parking lot. With a large lake bisecting the planned layout, and a concerted effort to maintain as many of the trees as possible, the developers have tried hard to match the elegance of the landscaping to the elegance of the homes.

The first homes went on sale a year ago and response was strong, with deposits on more than 40% of the homes offered in the first phase. Another 19 homes were offered for sale this spring with reservation agreements on another 18. Less than a quarter of the homes have yet been offered for sale. With shopping and dining nearby, easy access to all the major highways, and ample recreation just minutes away, demand is sure to be strong for the remaining homes.

Twin Hickory

When new businesses move to town, their employees are understandably concerned. Where will we live? How much will it cost? Are the schools good? Are there good restaurants, nice shops, friendly people? A drive to Henrico County's Twin Hickory development answers all of their questions.

In the far west end of Henrico County, Twin Hickory is a mixed, residential development of

33.35

apartments, town homes, affordable single family homes, and upscale residences. This new development already has the feel of home. Drive down the streets and you know you are in a well-planned community. Most of the homes are brick front Transitionals, and family is the theme. Everywhere you look there are children. Basketball hoops dot the side of the road. Wood-towered playgrounds dominate many backyards. Frisbees are flying. Kids ride bikes and toller blade down the bike path, teens play stickball at the end of the countless cul-de-sacs, new moms push strollers on the sidewalks (a new development with sidewalks!) — you can't help but smile.

Students in the Twin Hickory zone attend Deep Run High School and its excellent feeder schools. Only in its fourth year, Deep Run has already made a name for itself. It is consistently one of the top scoring schools in Virginia on State Standards of Learning tests, In addition, the school has also already won multiple state championships in athletics.

For recreation, the location can't be beat. Movie theaters, soccer fields, an ice skating rink, bowling alleys, driving ranges, and a top-rated golf course are all just minutes away. Dining options are endless, with the upscale Short Pump Town Center and all its perimeter shops just down the street. At one end of the development, the Shady Grove YMCA draws hundreds of people every day; a new Recreation Center is under construction across the street. At the other end of the development, the Short Pump Community Center is also under construction.

The suburbs are about family; providing the best for your children and taking advantage of all the amenities at an affordable price. Twin Hickory has all of this and is an attractive option for people relocating to Richmond.

At its best, a home is an extension of a family's personality. For some the quest for precisely manicured boxwoods and razor sharp edges between their

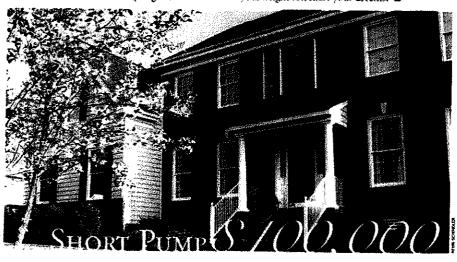

perfect lawn is the highest aspiration, a form of genteel elegance that once was the purview of only the wealthiest country squire. For others, nothing more fully expresses filial bliss than an endless array of primary-colored toys strewn about a well-traveled yard: part playpen, part dog run. For others, an elegantly appointed home, maintenance free, in a close-knit urban community of like-minded souls is the ideal.

Henrico County has it all and prides itself on being a great place to live, work, and raise a family, with friendly people, an aftordable cost of living, great schools, and an ideal location. In an era when neighborhoods have become geographical expressions only, it is nice to know that there are still places you can live and work where you feel connected, not cut off. Stuck within our McMansions, frozen to stone by the Medusan glare of cable TV, desperately seeking connection and solace in internet chatrooms with people we will never see, we may never even know the people next door. But it doesn't have to be that way. Open your door, meet your neighbors, share your dreams.

The luxurious feel of Grayson Hill (above) is helping to meet the demand for upscale condos and townhomes in Henrico County.

In an era when neighborhoods have become geographical expressions only. it is nice to know that there are still places you can live and work where you feel connected. not cut off.

File# R0803120

This report form is designed to report an appraisal of a one-unit property or a one-unit property with an accessory unit; including a unit in a planned unit development (PUD). This report form is not designed to report an appraisal of a manufactured home or a unit in a condominium or cooperative project.

This appraisal report is subject to the following scope of work, intended use, intended user, definition of market value, statement of assumptions and limiting conditions, and certifications. Modifications, additions, or deletions to the intended user, definition of market value, or assumptions and limiting conditions are not permitted. The appraiser may expand the scope of work to include any additional research or analysis necessary based on the complexity of this appraisal assignment. Modifications or deletions to the certifications are also not permitted. However, additional certifications that do not constitute material alterations to this appraisal report, such as those required by law or those related to the appraiser's continuing education or membership in an appraisal organization, are permitted.

SCOPE OF WORK: The scope of work for this appraisal is defined by the complexity of this appraisal assignment and the reporting requirements of this appraisal report form, including the following definition of market value, statement of assumptions and limiting conditions, and certifications. The appraiser must, at a minimum: (1) perform a complete visual inspection of the interior and exterior areas of the subject property, (2) inspect the neighborhood, (3) inspect each of the comparable sales from at least the street, (4) research, verify, and analyze data from reliable public and/or private sources, and (5) report his or her analysis, opinions, and conclusions in this appraisal report.

INTENDED USE: The intended use of this appraisal report is for the lender/client to evaluate the property that is the subject of this appraisal for a mortgage finance transaction.

INTENDED USER: The intended user of this appraisal report is the lender/client.

DEFINITION OF MARKET VALUE: The most probable price which a property should bring in a competitive and open market under all conditions requisite to a fair sale, the buyer and seller, each acting prudently, knowledgeably and assuming the price is not affected by undue stimulus. Implicit in this definition is the consummation of a sale as of a specified date and the passing of title from seller to buyer under conditions whereby: (1) buyer and seller are typically motivated; (2) both parties are well informed or well advised, and each acting in what he or she considers his or her own best interest; (3) a reasonable time is allowed for exposure in the open market; (4) payment is made in terms of cash in U. S. dollars or in terms of financial arrangements comparable thereto; and (5) the price represents the normal consideration for the property sold unaffected by special or creative financing or sales concessions* granted by anyone associated with the sale.

*Adjustments to the comparables must be made for special or creative financing or sales concessions. No adjustments are necessary for those costs which are normally paid by sellers as a result of tradition or law in a market area; these costs are readily identifiable since the seller pays these costs in virtually all sales transactions. Special or creative financing adjustments can be made to the comparable property by comparisons to financing terms offered by a third party institutional lender that is not already involved in the property or transaction. Any adjustment should not be calculated on a mechanical dollar for dollar cost of the financing or concession but the dollar amount of any adjustment should approximate the market's reaction to the financing or concessions based on the appraiser's judgment.

STATEMENT OF ASSUMPTIONS AND LIMITING CONDITIONS: The appraiser's certification in this report is subject to the following assumptions and limiting conditions:

- 1. The appraiser will not be responsible for matters of a legal nature that affect either the property being appraised or the title to it, except for information that he or she became aware of during the research involved in performing this appraisal. The appraiser assumes that the title is good and marketable and will not render any opinions about the title.
- 2. The appraiser has provided a sketch in this appraisal report to show the approximate dimensions of the improvements. The sketch is included only to assist the reader in visualizing the property and understanding the appraiser's determination of its size
- 3. The appraiser has examined the available flood maps that are provided by the Federal Emergency Management Agency (or other data sources) and has noted in this appraisal report whether any portion of the subject site is located in an identified Special Flood Hazard Area. Because the appraiser is not a surveyor, he or she makes no guarantees, express or implied, regarding this determination.
- 4. The appraiser will not give testimony or appear in court because he or she made an appraisal of the property in question, unless specific arrangements to do so have been made beforehand, or as otherwise required by law.
- 5. The appraiser has noted in this appraisal report any adverse conditions (such as needed repairs, deterioration, the presence of hazardous wastes, toxic substances, etc.) observed during the inspection of the subject property or that he or she became aware of during the research involved in performing the appraisal. Unless otherwise stated in this appraisal report, the appraiser has no knowledge of any hidden or unapparent physical deficiencies or adverse conditions of the property (such as, but not limited to, needed repairs, deterioration, the presence of hazardous wastes, toxic substances, adverse environmental conditions, etc.) that would make the property less valuable, and has assumed that there are no such conditions and makes no guarantees or warranties, express or implied. The appraiser will not be responsible for any such conditions that do exist or for any engineering or testing that might be required to discover whether such conditions exist. Because the appraiser is not an expert in the field of environmental hazards, this appraisal report must not be considered as an environmental assessment of the property.
- 6. The appraiser has based his or her appraisal report and valuation conclusion for an appraisal that is subject to satisfactory completion, repairs, or alterations on the assumption that the completion, repairs, or alterations of the subject property will be performed in a professional manner.

File # R0803120

APPRAISER'S CERTIFICATION: The Appraiser certifies and agrees that:

- 1. I have, at a minimum, developed and reported this appraisal in accordance with the scope of work requirements stated in this appraisal report.
- 2. I performed a complete visual inspection of the interior and exterior areas of the subject property. I reported the condition of the improvements in factual, specific terms. I identified and reported the physical deficiencies that could affect the livability, soundness, or structural integrity of the property.
- 3. I performed this appraisal in accordance with the requirements of the Uniform Standards of Professional Appraisal Practice that were adopted and promulgated by the Appraisal Standards Board of The Appraisal Foundation and that were in place at the time this appraisal report was prepared.
- 4. I developed my opinion of the market value of the real property that is the subject of this report based on the sales comparison approach to value. I have adequate comparable market data to develop a reliable sales comparison approach for this appraisal assignment. I further certify that I considered the cost and income approaches to value but did not develop them, unless otherwise indicated in this report.
- 5. I researched, verified, analyzed, and reported on any current agreement for sale for the subject property, any offering for sale of the subject property in the twelve months prior to the effective date of this appraisal, and the prior sales of the subject property for a minimum of three years prior to the effective date of this appraisal, unless otherwise indicated in this report.
- 6. I researched, verified, analyzed, and reported on the prior sales of the comparable sales for a minimum of one year prior to the date of sale of the comparable sale, unless otherwise indicated in this report.
- 7. I selected and used comparable sales that are locationally, physically, and functionally the most similar to the subject property.
- 8. I have not used comparable sales that were the result of combining a land sale with the contract purchase price of a home that has been built or will be built on the land.
- 9. I have reported adjustments to the comparable sales that reflect the market's reaction to the differences between the subject property and the comparable sales.
- 10. I verified, from a disinterested source, all information in this report that was provided by parties who have a financial interest in the sale or financing of the subject property.
- 11. I have knowledge and experience in appraising this type of property in this market area.
- 12. I am aware of, and have access to, the necessary and appropriate public and private data sources, such as multiple listing services, tax assessment records, public land records and other such data sources for the area in which the property is located.
- 13. I obtained the information, estimates, and opinions furnished by other parties and expressed in this appraisal report from reliable sources that I believe to be true and correct.
- 14. I have taken into consideration the factors that have an impact on value with respect to the subject neighborhood, subject property, and the proximity of the subject property to adverse influences in the development of my opinion of market value. I have noted in this appraisal report any adverse conditions (such as, but not limited to, needed repairs, deterioration, the presence of hazardous wastes, toxic substances, adverse environmental conditions, etc.) observed during the inspection of the subject property or that I became aware of during the research involved in performing this appraisal. I have considered these adverse conditions in my analysis of the property value, and have reported on the effect of the conditions on the value and marketability of the subject property.
- 15. I have not knowingly withheld any significant information from this appraisal report and, to the best of my knowledge, all statements and information in this appraisal report are true and correct.
- 16. I stated in this appraisal report my own personal, unbiased, and professional analysis, opinions, and conclusions, which are subject only to the assumptions and limiting conditions in this appraisal report.
- 17. I have no present or prospective interest in the property that is the subject of this report, and I have no present or prospective personal interest or bias with respect to the participants in the transaction. I did not base, either partially or completely, my analysis and/or opinion of market value in this appraisal report on the race, color, religion, sex, age, marital status, handicap, familial status, or national origin of either the prospective owners or occupants of the subject property or of the present owners or occupants of the properties in the vicinity of the subject property or on any other basis prohibited by law.
- 18. My employment and/or compensation for performing this appraisal or any future or anticipated appraisals was not conditioned on any agreement or understanding, written or otherwise, that i would report (or present analysis supporting) a predetermined specific value, a predetermined minimum value, a range or direction in value, a value that favors the cause of any party, or the attainment of a specific result or occurrence of a specific subsequent event (such as approval of a pending mortgage loan application).
- 19. I personally prepared all conclusions and opinions about the real estate that were set forth in this appraisal report. If I relied on significant real property appraisal assistance from any individual or individuals in the performance of this appraisal or the preparation of this appraisal report, I have named such individual(s) and disclosed the specific tasks performed in this appraisal report. I certify that any individual so named is qualified to perform the tasks. I have not authorized anyone to make a change to any item in this appraisal report; therefore, any change made to this appraisal is unauthorized and I will take no responsibility for it.
- 20. I identified the lender/client in this appraisal report who is the individual, organization, or agent for the organization that ordered and will receive this appraisal report.

File # R0803120

- 21. The lender/client may disclose or distribute this appraisal report to: the borrower; another lender at the request of the borrower; the mortgagee or its successors and assigns; mortgage insurers; government sponsored enterprises; other secondary market participants; data collection or reporting services; professional appraisal organizations; any department, agency, or instrumentality of the United States; and any state, the District of Columbia, or other jurisdictions; without having to obtain the appraiser's or supervisory appraiser's (if applicable) consent. Such consent must be obtained before this appraisal report may be disclosed or distributed to any other party (including, but not limited to, the public through advertising, public relations, news, sales, or other media).
- 22. I am aware that any disclosure or distribution of this appraisal report by me or the lender/client may be subject to certain laws and regulations. Further, I am also subject to the provisions of the Uniform Standards of Professional Appraisal Practice that pertain to disclosure or distribution by me.
- 23. The borrower, another lender at the request of the borrower, the mortgagee or its successors and assigns, mortgage insurers, government sponsored enterprises, and other secondary market participants may rely on this appraisal report as part of any mortgage finance transaction that involves any one or more of these parties.
- 24. If this appraisal report was transmitted as an "electronic record" containing my "electronic signature," as those terms are defined in applicable federal and/or state laws (excluding audio and video recordings), or a facsimile transmission of this appraisal report containing a copy or representation of my signature, the appraisal report shall be as effective, enforceable and valid as if a paper version of this appraisal report were delivered containing my original hand written signature.
- 25. Any intentional or negligent misrepresentation(s) contained in this appraisal report may result in civil liability and/or criminal penalties including, but not limited to, fine or imprisonment or both under the provisions of Title 18, United States Code, Section 1001, et seq., or similar state laws.

SUPERVISORY APPRAISER'S CERTIFICATION: The Supervisory Appraiser certifies and agrees that:

- 1. I directly supervised the appraiser for this appraisal assignment, have read the appraisal report, and agree with the appraiser's analysis, opinions, statements, conclusions, and the appraiser's certification.
- 2. I accept full responsibility for the contents of this appraisal report including, but not limited to, the appraiser's analysis, opinions. statements, conclusions, and the appraiser's certification.
- 3. The appraiser identified in this appraisal report is either a sub-contractor or an employee of the supervisory appraiser (or the appraisal firm), is qualified to perform this appraisal, and is acceptable to perform this appraisal under the applicable state law.
- 4. This appraisal report complies with the Uniform Standards of Professional Appraisal Practice that were adopted and promulgated by the Appraisal Standards Board of The Appraisal Foundation and that were in place at the time this appraisal report was prepared.
- 5. If this appraisal report was transmitted as an "electronic record" containing my "electronic signature," as those terms are defined in applicable federal and/or state laws (excluding audio and video recordings), or a facsimile transmission of this appraisal report containing a copy or representation of my signature, the appraisal report shall be as effective, enforceable and valid as if a paper version of this appraisal report were delivered containing my original hand written signature.

<u>URAR: Improvements - Additional Features</u>
 No Personal Property Appraised. Extensive trim throughout, marble flooring in foyer, granite countertops, top of the line kitchen appliances, whirlpool tub, steam shower, trayed ceilings, B/I bookcases/entertainment centers, electric garage door

kitchen appliances, whirlpool tub, steam shower, trayed ceilings, B/I bookcases/entertainment centers, electric garage door openers, circular drive that is granite lined, federal style colonial porch.

• URAR: Sales Comparison Analysis - Summary of Sales Comparison Approach

All sales are high end homes in the subjects marketing area. Comp Sale one is a new dwelling transfer from a nearby development of new homes. Demand for this new development is superior to that of the subjects development as reflected in the location adjustment. Comp sale two is a similar renovated dwelling on a larger site. This sale is located in a similar established development near the subject. It was selected for its basement. This sale also included an adjoining lot that can be sold off seperately. The site adjustment reflects the size difference and the additional lot. This adjustment causes the gross adjustments to exceed 25%. Comp sale three is an unrenovated dwelling that is located along a heavily traveled road. The location adjustment was made to reflect the external obsolescence caused by this main road. This adjustment causes the gross adjustments to exceed 25%. Comp sale four is supplied as additional support. This sale is located very close to the subject. This sale lacks a basement, The actual age of this sale in less than the subject, but the subject is totally renovated with a lower effective age. All sales were given adequate consideration when arriving at a final value estimate.

Real Estate Assessment

本なにあって 化元を内がって 口ををおたのシャ 氏をは 田野は本口はおのは

Title 58.1-3291 of the Code of Virginia provides for the assessment of ear property at 100% of far market value. Fair market value. Fair market value. The probable amount a property would sell for today if exposed to the market for a reasonable penod. Henrico Coursty employes an annual reassessment program to ensure that property is assessed uniformly and at its market value. The Real Estate Assessment Division is part of the Department of Finance and is charged with the rewew and reassessment of all real property effective January 1 of each year.

How Assessments are Determined

Real estate assessments are based on the typical selling price of comparable propenties and reflect the actions of buyers and sellers in the local market. The Real Estate Assessment Division is responsible for renewing market transactions and using the data to assess each property accordingly. Each year staff analyzes thousands of real estate transfers, of which the majority are residential properties. Additionally, transactions for previous years are examined. Sales information is gathered from recorded deeds, buyers, sellers, real estate professionals, and the selling prices are compared to the assessed values to determine an assessment/sales ratio. A neighborhood is selected for reassessment when its assessment/sales ratio is significantly below or above 100 percent. Once it is determined that an area must be reassessed, three valuation approaches i.e., sales comparison, cost. or income are considered. Typically, the sales comparison approach is chosen for residential properties. Comparable sales information is used as a basis for the assessment of individual properties after the transactions are carefully analyzed to consider differences in size, quality, condition, location, and other amenities

analysis in addition to replacement cost data and market data, commercial properties are selected for reassessment based on potential rental income, occupancy levels, and investor demand. Oue to the limited number of local commercial property transactions, regional and national information must be collected for
